

# Short answer questions

## Listening – Short answer questions (script)

Claire Hi Geoff, how are you?

Geoff I'm good thanks Claire, I just finalised my subject choices for the coming year

Claire That's good, did you manage to get into all the courses you wanted to?

Geoff Most of them, but if I want to do both Environmental Sciences and Biology there was going to be a clash in my schedule, so I'll have to postpone Biology till next semester.

Claire I see, is that going to affect when you finish your degree?

Geoff Not really, but I'll have to attend lectures twice a week for the course I've postponed. It's a little inconvenient as I will also have a lot of assignments to do.

Claire How much time will you have to spend in the lab?

Geoff Over the course of a month, I'll probably spend about 25 hours in the laboratory.

Claire Were you happy with your results from your final exams last year?

Geoff Yes, I was very satisfied with how I did last year, but I'll still have to keep up the hard work this year to make sure I maintain my current standards.

Claire It sounds like you're doing really well.

Geoff Overall I'm pretty happy with how things are going, but I did have quite a few frustrations with technology last year. The computer hardware here is a little outdated and unreliable, it definitely needs upgrading.

Claire Yeah I know what you mean.

Geoff Sorry Claire, I have to go, I have an appointment with my zoology professor, but I'll talk to you soon.

Claire OK, Bye Geoff
